

INDIANA STATE UNIVERSITY

Online LPN/LVN to Bachelor of Science in Nursing

Earn Your Bachelor's Degree & RN License

Founded in 1865, Indiana State University has been recognized by *The Princeton Review*, *U.S. News and World Report*, and *Forbes* as one of the best colleges in the Midwest. Indiana State University's College of Nursing, Health, and Human Services, which is Accreditation Commission for Education in Nursing (ACEN) accredited and a member of the National League for Nursing (NLN), has distinguished itself as one of the nation's premier online nursing programs.

Indiana State University has partnered with The College Network® to offer a Bachelor of Science in nursing program for LPNs/LVNs interested in advancing their knowledge, experience, and career potential. The goal of the program is to provide the highest level of nursing education possible for those seeking to complete their baccalaureate degrees with a major in nursing and achieve eligibility to apply to take the RN licensure examination (NCLEX-RN). This program is completed online, making a fulfilling educational experience possible wherever you are.

How The College Network's Program Works

The College Network's online program enables you to continue your education and earn college credit from the comfort of home. Satisfy your general education and elective requirements through a combination of credit previously awarded from accredited institutions and/or by using The College Network's online program and exams (up to 67 credits), and then transfer to Indiana State University to complete the rest of your degree online.

The College Network's online program includes Comprehensive Learning Modules™ (courses) and exams. The exams are designed to measure what you would learn in a typical college course in the related subject area. The American Council on Education's College Credit Recommendation Service (ACE CREDIT®) has evaluated and recommended college credit for The College Network's suite of online courses and exams. For more information, visit the ACE CREDIT web site at www.acenet.edu/credit.

Most of your general education and elective requirements can be fulfilled using The College Network's online program and exams. In some situations, you may be required to take a CLEP®, DSST®, or Excelsior College® exam for certain courses.

Program Benefits

- Flexible program enables you to work at your own pace
- Secure online access is available 24-hours a day
- Academic support is available for The College Network portion of the program
- Industry-leading technology makes it possible to take end-of-course exams from the comfort of home

University

Partners in Education

The College Network provides educational solutions that help individuals advance their education and training with college degrees and professional certificates from highly acclaimed universities.

As one of the nation's leading eLearning companies and a partner with some of the nation's foremost institutions of higher learning, The College Network has helped hundreds of thousands of adults continue their education.

Program Progression

There are three phases involved in Indiana State University's LPN/LVN to BS in nursing program. The following are brief descriptions of the phases that students must fulfill to complete the degree program.

Phase I

Step 1: Receive a preliminary course analysis from The College Network®.

Step 2: Complete your general education courses, including the following prerequisite subject areas required for enrollment in the Indiana State University College of Nursing, Health, and Human Services:

- Algebra
- English Composition
- Principles of Public Speaking
- Anatomy and Physiology
- Introduction to Computing
- Psychology
- Chemistry
- Microbiology

You can complete your general education and prerequisite courses by any combination of the following:

- Using The College Network's Comprehensive Learning Modules™ to prepare for and pass equivalency examinations
- Transfer credits from an accredited college/university
- Taking courses online at Indiana State University
- Taking courses on campus at Indiana State University

Phase II

Step 1: Apply for admission into Indiana State University. You can access the application online at: www.indstate.edu/admissions/applications/transfer-distance.htm

Step 2: Upon acceptance into Indiana State University, complete the four Nursing Transition Courses and corresponding nursing challenge exams.

Step 3: Apply for admission to the Indiana State University College of Nursing, Health, and Human Services. The application can be accessed at: www.indstate.edu/lpn-bs/admission-criteria.htm

Note: General admission decisions are determined by Indiana State University and nursing program admissions are determined by the College of Nursing, Health, and Human Services based on published admission requirements.

Phase III

Step 1: Upon admission into the College of Nursing, Health, and Human Services, complete your nursing courses online and concurrent clinical hours with Indiana State University.

Step 2: Graduate and then prepare to take your NCLEX-RN® exam!

Clinical Nursing Courses

To supplement the theory portion of the nursing core requirements, students will engage in six separate clinical learning experiences in NURS 304, NURS 324, NURS 338, NURS 424, NURS 450, and NURS 484. Since each experience is distinct in its goals and applications, you will be given the opportunity to explore different aspects of the multifaceted healthcare industry. You will complete these experiences locally under the supervision of a faculty-approved preceptor.

Note: Students are asked to recommend potential clinical sites within their local communities. Once a clinical site is identified, the Indiana State University clinical coordinator will facilitate the student's placement by working with the healthcare facility to meet the requirements of the state board of registered nursing within the state where the student is working.

Course Descriptions (courses are listed in order of completion)

Nursing Transition Courses [†] (Phase II)	
<p>NURS 106 Mental Health Aspects of Nursing Practice (2 SH) An introduction to the communicator role of the professional nurse is presented. Therapeutic communication techniques, interpersonal skills, and mental health concepts as they relate to this role are the focus.</p>	<p>NURS 328 Nursing Care of the Child and Family (4 SH) Critical thinking and clinical judgment are used to assist children and their families in the promotion and maintenance of health and the prevention of and/or recovery from illness in hospital and community settings.</p>
<p>NURS 224 Nursing Care of Adults I (5 SH) Roles of the nurse providing care to adults and older adults in hospital and community settings are introduced. Application of critical thinking and clinical judgment skills to promote optimal health and provide care to clients experiencing or recovering from illness is emphasized.</p>	<p>NURS 330 Nursing Care of the Childbearing Family (4 SH) The course focuses on understanding and performing nursing clinical judgments for women and infants during the reproductive life cycle.</p>

Online Courses (Phase III)	
<p>NURS 208 Transition from LPN to BSN (3 SH) An introduction for the licensed practical nurse to the role of the baccalaureate-prepared nurse. Successful completion will result in earning credit hours for NURS 104, 204, and 228.</p>	<p>NURS 450 Population-Focused Community Health Nursing (6 SH)* The focus of this course is the professional nurse's role in working with aggregates in the community. Involves 90 hours of clinical learning experience. Prerequisites: NURS 322, and 324</p>
<p>NURS 304 Comprehensive Health Assessment for Nursing Practice (4 SH)* Comprehensive health assessment skills are applied to nursing practice with clients throughout the lifespan. Involves 45 hours of clinical learning experience. Pre- or corequisite: NURS 208</p>	<p>NURS 470 Nursing Leadership (3 SH) Emphasis is placed on examining leadership and management roles. Factors that influence quality of care are examined. Co-requisite: concurrent enrollment in NURS 484 or 486, or consent of instructor</p>
<p>NURS 322 Research/Theoretical Basis for Nursing Practice (3 SH) The course focuses on examination and application of clinical scholarship through evidenced-based practice. Emphasis is on skills for research applied to clinical practice. Prerequisites: NURS 338. Pre- or corequisite: EPSY 302 or HLTH 340 (or any college-level statistics course)</p>	<p>NURS 484 Reflective Nursing Practice (3 SH)* This clinical concentration course provides opportunity for synthesis and evaluation of professional nursing role behaviors essential to care of clients experiencing complex care needs in a variety of settings. Involves 135 hours of clinical learning experience. Prerequisites: NURS 424 and 450. Pre- or corequisite: NURS 470</p>
<p>NURS 324 Nursing Care of Adults II (5 SH)* Expanded roles of the nurse are performed in hospital and community settings for adults and older adults. Expanded critical thinking and clinical judgment skills are applied to promote health and provide care for clients experiencing or recovering from complex illnesses. Involves 90 hours of clinical learning experience. Prerequisite: BIO 412 (Pathophysiology)</p>	<p>NURS 486 Professional Nursing Synthesis (3 SH) This course serves as the capstone course for the integration, synthesis, and reflection of professionalism, professional goals, and professional nursing practice informed through multiple ways of knowing and experiences grounded in historical, literary, artistic, scientific, and technological perspectives. Issues and trends germane to contemporary nursing are explored. Prerequisites: NURS 424 and 446 (NURS 470 and 484 must be taken prior to or concurrently with NURS 486.)</p>
<p>NURS 338 Mental Health Nursing (4 SH)* Nursing care of individuals experiencing mental illness is emphasized. Major theoretical principles governing the practice of psychiatric nursing are applied to patient care in structured settings. Involves 45 hours of clinical learning experience.</p>	<p>NURS 490 Licensure Preparatory Course (2 SH) This course focuses on specific critical thinking skills that help students effectively answer application and analysis level questions. Emphasis and review covers pertinent nursing areas including management of care, wellness, and pharmacology.</p>
<p>NURS 424 Nursing Care of Adults III (5 SH)* Course focuses on nursing care of individuals with high-intensity, multi-system dysfunction in specialized institutional and community settings. The interpretation, analysis, and synthesis of the physical parameters and laboratory findings of the individual's patho-physiological status are emphasized. Involves 90 hours of clinical learning experience. Prerequisites: NURS 322, 324, and BIO 412 (Pathophysiology)</p>	<p>PE 101 Fitness for Life (2 SH) This course presents information and activities that emphasize fitness and exercise and their relationship to health. Lectures and a variety of accompanying laboratory activities help students make informed decisions about fitness, exercise, and health throughout their lifetime. Regular participation in physical activity is a main component of the course.</p>

ACE® Transcript Services

For the benefit of our learners, The College Network® participates in the American Council on Education's (ACE) Transcript Service. The ACE Transcript Service offers a lifelong record for students who have successfully completed our courses that have been reviewed by ACE CREDIT. This service enables adult learners to present a nationally recognized transcript to the college or university of their choice for the potential award of academic credit. For more information, visit the ACE CREDIT Transcript Service web site at www.acenet.edu/credit/transcripts.

For more than 30 years, colleges and universities have trusted ACE CREDIT to provide reliable course equivalency information to facilitate their decisions to award academic credit. For more information, visit the ACE CREDIT web site at www.acenet.edu/credit.

Admissions Criteria

Indiana State University evaluates your total application package. Once your application is complete, the program director will weigh all aspects, including professional experience and activities, to arrive at a decision based on an assessment of your capacity for study.

Applicant requirements:

1. Apply and be granted admission to the university as a degree-seeking transfer student. Applicants must have a minimum grade point average (GPA) of 2.0 on a 4.0 scale for admission into the university.
2. Have proof of current licensure as a practical/vocational nurse in the United States. Applicants must have a current LPN/LVN license in the state where the clinical will be completed.*
3. Have completed a practical nursing program of studies from any state-accredited or ACEN-accredited community college, vocational school, or technical school.**
4. Have a minimum grade point average (GPA) of 2.5 on a 4.0 scale for admission into the College of Nursing, Health, and Human Services.
5. Successful completion of the Test of Essential Academic Skills (TEAS®) entrance exam.

* If the applicant has taken the licensing exam and results are not known until after the start of the semester, or if the applicant has failed the licensing exam, the applicant will be required to drop the nursing courses in which he or she is enrolled and be placed into general education courses only.

** The application of a graduate from a practical nursing program that is not state-accredited will be evaluated on an individual basis.
