

# Regis University

## Bachelor of Science in Health Care Administration

As one of the fastest growing job markets in the country, the healthcare industry is experiencing an increased demand for qualified professionals to lead and manage health care facilities and staff.

According to the Bureau of Labor Statistics, demand for healthcare management professionals is expected to increase by 22% through 2020.<sup>1</sup> By obtaining your Bachelor of Science in Health Care Administration, you'll be prepared to begin an exciting career as a management professional in a variety of healthcare facilities including hospitals, managed care facilities, insurance companies, and technology and consulting firms.

### The Value of a Bachelor's Degree

In today's changing job market, the bachelor's degree is swiftly becoming the standard requirement for professional employment. During competitive economic times, a bachelor's degree holds consistent value and continually opens the door to a greater number of proven job opportunities.

According to a recent study from Georgetown University, graduates in healthcare, business, and technical services currently enjoy lower unemployment rates than graduates in other industries.<sup>2</sup> In order to meet the changing needs of an aging population, the demand for qualified health care managers will continue to grow.

By pursuing your Bachelor of Science in Health Care Administration today, you can secure your position as a qualified candidate and prepare yourself for future opportunities in this expanding market.

Job opportunities for healthcare management professionals are expected to grow 22% through 2020.<sup>1</sup>
